☒ Required and attached to this report as Exhibit "H" ☐ Not Required - Disclosures covered in this report.

Summary of Changes from Earlier Public Reports:

This summary contains a general description of the changes, if any, made by the developer since the last public report was issued. It is not necessarily all inclusive. Prospective buyers should compare this public report with the earlier reports if they wish to know the specific changes that have been made.

☐ No prior reports have been issued by the developer.

☒ Changes made are as follows:

1. Unit A has been sold, Unit B has been transferred to HOLAWA B, LLC, a Hawaii limited liability company, and Unit C has been transferred to HOLAWA C, LLC, a Hawaii limited liability company.
2. The Project's Declaration and Condominium Map have been amended. The amendment document ("Amendment") affects only Dwelling Units B, C and D, and consists of a series of changes designated as paragraphs designated as "A" through "N" inclusive. Although this Public Report summarizes the changes made, a prospective purchaser is encouraged to review the Amendment itself.

The following is a summary of the changes:

A. Dwelling Unit B Changes. The structures that previously constituted Dwelling Unit B have been replaced with new structures, including a residence, garage and other improvements;

B. Parking Stalls. One additional parking stall has been provided for each Dwelling Unit. Each of Units A and D has the exclusive use of the two (2) parking stalls located on its appurtenant Dwelling Unit Limited Common Element. Unit B has the exclusive use of the two (2) parking stalls located within its garage. Unit C has the exclusive use of two (2) uncovered parking stalls located on its appurtenant Dwelling Unit Limited Common Element;

C. State Seawall Easements. Developer has assigned to the Owner of Unit C and the Owner of Unit D, his rights under easements from the State that are dated April 16, 2009 and expire on March 9, 2027. The easements allow the use and repair of seawalls. Each of such Unit Owners will assume all obligations under the easements, such as payment of rents, making any needed repairs of the sea walls and adding the State of Hawaii as an additional insured on their respective insurance policies. Rent payable by Unit C owner is \$3,332 annually until 2017, and rent payable by Unit D owner is \$9,032 annually until 2017. In 2017, the rent under each easement is re-determined.

D. Limited Common Element B. The location and area of the land appurtenant to Dwelling Unit B has changed and is now 8,383 Square Feet, as shown on the Amended Condominium Map.

E. Limited Common Element C. The location and area of the land appurtenant to Dwelling Unit C has changed and is now 5,471 Square Feet, as shown on the Amended Condominium Map.

F. Limited Common Element D. The location and area of the land appurtenant to Dwelling Unit D has changed and is now 5,578 Square Feet, as shown on the Amended Condominium Map.

G. Improvements in Driveway. That portion of the Project Land (3280 Sq. Ft.) that is a limited common element for Dwelling Units "B", "C" & "D" is a "Driveway". If the benefitted owners so agree, they may install a gate or wall for access at the entrance to the Driveway from Holawa Street. If so installed, the gate or wall shall be considered a limited common element for the benefit of Dwelling Unit B, Dwelling Unit C and Dwelling Unit D, and the costs for construction, repair, maintenance and replacement shall be a limited common expense shared equally by the Owner of Dwelling Unit B, Owner of Dwelling Unit C and Owner of Dwelling Unit D.

H. Shared Water Service. Easements for water line purposes and shared water services, including meters to measure consumption by each Unit, have been imposed on the limited common elements appurtenant to each of Dwelling Units B, C and D for the benefit of such Units. The easements expire five (5) years following the purchase of a Dwelling Unit by a person other than Developer or his affiliate. Prior to expiration of the 5 Year Sharing Period, each of the Owner of Dwelling Unit C and the Owner of Dwelling Unit D, as applicable, shall install at his own expense a dedicated main line directly from his Dwelling Unit to the City and County water system and shall demolish and remove the water lines from within the aforesaid easement areas. During the 5 Year Sharing Period the costs of water service to Dwelling Unit C and Dwelling Unit D shall be measured by Developer and invoiced based on sub-meters installed in Dwelling Unit C and Dwelling Unit D.

I. Shared Utility Easements. Easements for cable, telephone, electricity and other utility purposes are declared for the benefit of Dwelling Unit C and Dwelling Unit D over those portions of Dwelling Area Unit B, Dwelling Area Unit C and Dwelling Area Unit D within a five (5) foot wide easement area designated on the Amended Condominium Map as "5-foot wide Sewer & Utility Easement" and "5-Foot Wide Utility Easement" (collectively, "Utilities Easement"). Such utilities within the easement area must be installed underground.

Aboveground Poles and Wires. Easements for the current locations of the poles and wires located above Dwelling Area Unit B, Dwelling Area Unit C and Dwelling Area Unit D are also declared for the benefit of Dwelling Unit B, Dwelling Unit C and Dwelling Unit D. Such easements shall terminate on the earlier of (1) five (5) years following the acquisition of ownership of Dwelling Unit C and Dwelling Unit D by a person or persons other than Developer or his affiliate; or (2) upon the substantial renovation or rebuilding of the dwelling constituting Dwelling Unit C by the Owner if such Owner of Dwelling Unit C desires that the above ground poles and wires be removed. If such easement is terminated, the Dwelling Unit Owners benefitted by such easement shall cause the aboveground poles and wires to be removed and for their utilities serviced thereby to be installed underground either within the Utilities Easement for Dwelling Unit C and Dwelling Unit D or within the Driveway Limited Common Element.

J. Access over Driveway Limited Common Element. Each of the Dwelling Units other than Dwelling Unit A has a perpetual, nonexclusive easement over, under and across the Driveway Limited Common Element to provide access between such Dwelling Unit and Holawa Street, such access being for driveway and for utility services, subject to the following conditions:

(a) All costs to repair, maintain and replace any improved area of such easement area will be shared equally by the Owners of the Dwelling Units B, C and D, unless such costs to repair, maintain and replace resulted from damage caused by one of the Owners of a Unit (in which case, such Owner is responsible for repair of any such damage caused.); and

(b) The Driveway Limited Common Element may be used for access and utilities purposes in order to service Dwelling Unit B, Dwelling Unit C and Dwelling Unit D only. Such utilities shall be installed underground. The Driveway Limited Common Element may not be used for parking or storage of vehicles, construction materials or other items, except on an emergency or temporary basis.

(c) Each of the Owner of Dwelling Unit B, Owner of Dwelling Unit C and Owner of Dwelling Unit D Owners may use the Driveway Limited Common Element and may make improvements at his sole cost and expense within, on or under the Driveway Limited Common Element, provided, however, that (1) that such improvements shall not unreasonably restrict on a permanent basis the access in favor of another benefitted Owner; (2) such work shall be undertaken by a State of Hawaii licensed contractor specializing in such work; and (3) after the completion of any construction, reconstruction, or repair by a Unit Owner, such Owner shall restore at his sole cost and expense the surface of the ground area within which the work was done with grass or grass "block".

K. Pedestrian Easement. There has been granted to Dwelling Unit B a 5-foot wide non-exclusive pedestrian easement for access to the Ocean over that portion of Dwelling Area Unit D shown on the Amended Condominium Map as containing 493 square feet.

L. Trash Storage and Removal. Unless otherwise agreed upon by the Owner of Dwelling Unit B, Owner of Dwelling Unit C, and Owner of Dwelling Unit D, each of such Owners shall have his own trash bins or containers in which such Owner shall store trash generated from the Owner's use and occupancy of his Dwelling

Unit. Separate trash containers or bins are provided by the City and County for recyclables, green waste and other trash. Storage and removal of trash shall not be an obligation of the Association, and the costs of the foregoing shall be borne by the individual Dwelling Unit Owner.

M. Alterations to Units, Sections 19.1(iii) and (iv) that govern making future alterations to an Owner's Unit were revised to provide the following:

"(iii) no structure as defined under the LUO shall be constructed or placed on Dwelling Area Unit C or Dwelling Area Unit D within that area on which a leaching field is located.

(iv) so long as the Project is serviced by private septic systems, all changes shall conform to the State Department of Health rules, unless a variance therefrom has been obtained."

N. Changes in Septic Systems. The prior septic system with cesspool that was shared by Dwelling Unit C and Dwelling Unit D has been replaced, and each Dwelling Unit now has its own septic system, tank and leaching field located as shown on the Amended Condominium Map. The installation of such systems was done under a renewable 5-year variance granted by the State of Hawaii Department of Health. Each Owner shall maintain and service as required his own septic system and shall be responsible for the renewal of the current variance (during each five year period). The area of each leach field shall not be used for the location of a structure or planted with landscaping, but may be used for vehicle parking by the Owner, except that the Owner of Dwelling Unit D shall have an easement for utility purpose over a portion of Dwelling Area Unit C to allow for installation of utilities underground from Dwelling Unit D to the Driveway Limited Common Element.

3. The blanket lien has been released, and updated title reports have been filed herewith.

SPECIAL ATTENTION

The Developer has disclosed the following:

- (a) This is a **CONDOMINIUM PROJECT**, not a subdivision. The land area beneath and immediately appurtenant to each unit is designated a **LIMITED COMMON ELEMENT** and does not represent a legally subdivided lot. The dotted lines in the Condominium Map bounding the designated number of square feet in each limited common element land area are for illustration purposes only and should not be construed to be formal subdivision lines.
- (b) Facilities and improvements normally associated with county approved subdivisions, such as fire protection devices, County street lighting, electricity, upgraded water facilities, improved access for owner and emergency traffic, drainage facilities, etc., may not necessarily be provided for, and services such as County street maintenance and trash collection will not be available for interior roads and driveways.
- (c) No warranties are given to the purchaser as to the construction, materials or workmanship of the Project. The Project is being sold in "as is" condition (pages 12 and 15).

This public report does not constitute approval of the Project by the Real Estate Commission or any other governmental agencies, nor does it ensure that all applicable County codes, ordinances, and subdivision requirements have necessarily been complied with. **THE PROSPECTIVE PURCHASERS ARE CAUTIONED TO CAREFULLY REVIEW ALL DOCUMENTS REGARDING THIS CONDOMINIUM PROJECT FOR FURTHER INFORMATION WITH REGARD TO THE FOREGOING.**

General Information On Condominiums

A condominium is a special form of real property. To create a condominium in Hawaii, the requirements of the Condominium Property Act, Chapter 514A, Hawaii Revised Statutes, must be complied with. In addition, certain requirements and approvals of the County in which the project is located must be satisfied and obtained.

Some condominium projects are leasehold. This means that the land or the building(s) and other improvements are leased to the buyer. The lease for the land usually requires that at the end of the lease term, the lessees (apartment owners/tenants) deliver their interest in the land to the lessor (fee property owner). The lease also usually requires that the lessees either (1) convey to the lessor the building(s) and other improvements, including any improvements paid for by the lessees; or (2) remove or dispose of the improvements at the lessee's expense. Leases for individual apartments often require that at the end of the lease term, the lessee deliver to the lessor the apartment, including any improvements placed in the apartment by the lessee.

If you are a typical condominium apartment owner, you will have two kinds of ownership: (1) ownership in your individual apartment; and (2) an undivided interest in the common elements.

"Common elements" are the areas of the condominium project other than the individual apartments. They are owned jointly by all apartment owners and include the land, either in fee simple or leasehold, and those parts of the building or buildings intended for common use such as foundations, columns, roofs, halls, elevators, and the like. Your undivided interest in the common elements cannot be separated from ownership of your apartment.

In some condominium projects, some common elements are reserved for the exclusive use of the owners of certain apartments. These common elements are called "limited common elements" and may include parking stalls, patios, lanais, trash chutes, and the like.

You will be entitled to exclusive ownership and possession of your apartment. Condominium apartments may be individually bought, sold, rented, mortgaged or encumbered, and may be disposed of by will, gift, or operation of law.

Your apartment will, however, be part of the group of apartments that comprise the condominium project. Study the project's Declaration, Bylaws, and House Rules. These documents contain important information on the use and occupancy of apartments and the common elements as well as the rules of conduct for owners, tenants, and guests.

Operation of the Condominium Project

The Association of Apartment Owners is the entity through which apartment owners may take action with regard to the administration, management, and operation of the condominium project. Each apartment owner is automatically a member of the Association.

The Board of Directors is the governing body of the Association. Unless you serve as a board member or an officer, or are on a committee appointed by the board, your participation in the administration and operation of the condominium project will in most cases be limited to your right to vote as an apartment owner. The Board of Directors and officers can take certain actions without the vote of the owners. For example, the board may hire and fire employees, increase or decrease maintenance fees, borrow money for repair and improvements and set a budget. Some of these actions may significantly impact the apartment owners.

Until there is a sufficient number of purchasers of apartments to elect a majority of the Board of Directors, it is likely that the developer will effectively control the affairs of the Association. It is frequently necessary for the developer to do so during the early stages of development and the developer may reserve certain special rights to do so in the Declaration and Bylaws. Prospective buyers should understand that it is important to all apartment owners that the transition of control from the developer to the apartment owners be accomplished in an orderly manner and in a spirit of cooperation.

II. CREATION OF THE CONDOMINIUM; CONDOMINIUM DOCUMENTS

A condominium is created by recording in the Bureau of Conveyances and/or filing with the Land Court a Declaration of Condominium Property Regime, a Condominium Map (File Plan), and the Bylaws of the Association of Apartment Owners. The Condominium Property Act (Chapter 514A, HRS), the Declaration, Bylaws, and House Rules control the rights and obligations of the apartment owners with respect to the project and the common elements, to each other, and to their respective apartments. The provisions of these documents are intended to be, and in most cases are, enforceable in a court of law.

IMPORTANT INFORMATION ON LEASEHOLD CONDOMINIUM PROJECTS

The information contained in this report is a summary of the terms of the lease. For more detailed information, you should secure a copy of the lease documents and read them thoroughly.

If you have any legal questions about leasehold property, the lease documents or the terms of the lease and the consequences of becoming a lessee, you should seek the advice of an attorney.

There are currently no statutory provisions for the mandatory conversion of leasehold condominiums and there are no assurances that such measures will be enacted in the future.

In leasehold condominium projects, the buyer of an apartment will acquire the right to occupy and use the apartment for the time stated in the lease agreement. The buyer will not acquire outright or absolute fee simple ownership of the land. The land is owned by the lessor or the leased fee owner. The apartment owner or lessee must make lease rent payments and comply with the terms of the lease or be subject to the lessor's enforcement actions. The lease rent payments are usually fixed at specific amounts for fixed periods of time, and are then subject to renegotiation. Renegotiation may be based on a formula, by arbitration set in the lease agreement, by law or by agreement between the lessor and lessee. The renegotiated lease rents may increase significantly. At the end of the lease, the apartment owners may have to surrender the apartments, the improvements and the land back to the lessor without any compensation (surrender clause).

When leasehold property is sold, title is normally conveyed by means of an assignment of lease, the purpose of which is similar to that of a deed. The legal and practical effect is different because the assignment conveys only the rights and obligations created by the lease, not the property itself.

The developer of this condominium project may have entered into a master ground lease with the fee simple owner of the land in order to develop the project. The developer may have then entered into a sublease or a new lease of the land with the lessee (apartment owner). The developer may lease the improvements to the apartment owner by way of an apartment lease or sublease, or sell the improvements to the apartment owners by way of a condominium conveyance or apartment deed.

Uses	<u>X</u>	<u> </u>	<u> </u>
Structures	<u>X</u>	<u> </u>	<u> </u>
Lot	<u>X</u>	<u> </u>	<u> </u>

If a variance has been granted or if uses, improvements or lot are either non-conforming or illegal, buyer should consult with county zoning authorities as to possible limitations which may apply.

Limitations may include restrictions on extending, enlarging, or continuing the non-conformity, and restrictions on altering and repairing structures. In some cases, a non-conforming structure that is destroyed or damaged cannot be reconstructed.

The buyer may not be able to obtain financing or insurance if the condominium project has a non-conforming or illegal use, structure, or lot.

D. Common Elements, Limited Common Elements, Common Interest:

1. Common Elements: Common Elements are those parts of the condominium project other than the individual apartments. Although the common elements are owned jointly by all apartment owners, those portions of the common elements which are designated as limited common elements (see paragraph 2 below) may be used only by those apartments to which they are assigned. The common elements for this project, as described in the Declaration, are:

☒ described in Exhibit C.

☐ as follows:

2. Limited Common Elements: Limited Common Elements are those common elements which are reserved for the exclusive use of the owners of certain apartments.

☐ There are no limited common elements in this project.

☐ as follows:

NOTE: Reference to said Exhibit "D" to "Dwelling Areas" does not mean legally subdivided lots.

3. Common Interest: Each apartment will have an undivided fractional interest in all of the common elements. This interest is called the "common interest." It is used to determine each apartment's share of the maintenance fees and other common profits and expenses of the condominium project. It may also be used for other purposes, including voting on matters requiring action by apartment owners. The common interests for the apartments in this project, as described in the Declaration, are:

☐ described in Exhibit .

☒ as follows:

Unit A - 25%
Unit B - 25%
Unit C - 25%
Unit D - 25%

- E. Encumbrances Against Title: An encumbrance is a claim against or a liability on the property or a document affecting the title or use of the property. Encumbrances may have an adverse effect on the property or your purchase and ownership of an apartment in the project.

Exhibit E describes the encumbrances against the title contained in the title reports dated July 8, 2015, July 10, 2015, July 13, 2015, and July 27, 2015 and issued by Title Guaranty of Hawaii, Inc.

Blanket Liens:

A blanket lien is an encumbrance (such as a mortgage) on the entire condominium project that secures some type of monetary debt (such as a loan) or other obligation. A blanket lien is usually released on an apartment-by-apartment basis upon payment of specified sums so that individual apartments can be conveyed to buyers free and clear of the lien.

☒ There are no blanket liens affecting title to the individual apartments.

☐ There are blanket liens which may affect title to the individual apartments.

Blanket liens (except for improvement district or utility assessments) must be released before the developer conveys the apartment to a buyer. The buyer's interest will be affected if the developer defaults and the lien is foreclosed prior to conveying the apartment to buyer.

DISCLOSURE REGARDING SELECTION OF REAL ESTATE BROKER:

The Developer has not selected a real estate broker for the sale of apartment in the Project.

In the event the Developer chooses to use a real estate broker for the sale of an apartment, prior to entering into a binding contract for such sale the Developer shall (1) submit to the Real Estate Commission a duly executed copy of a broker listing agreement with a Hawaii-licensed real estate broker, together with a duly executed disclosure abstract identifying the designated broker, and (2) provide a copy of the disclosure abstract to the purchaser together with a copy of this public report.

LEAD WARNING STATEMENT

Pursuant to federal law, 42, U.S.C 4852(d), the Residential Lead-Based Paint Reduction Act, "Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase."

HAZARDOUS MATERIALS

The Developer neither prepared nor commissioned a Phase 1 Environmental Site Assessment and makes no representations or warranties whatsoever. The developer has made no independent investigation as to asbestos or other hazardous substances in the apartments or in, under or around the Project, including but not limited to, radioactive materials, organic compounds known as polychlorinated biphenyls, chemicals known to cause cancer or reproductive toxicity, pollutants, contaminants, hazardous wastes, toxic substances, and any and all other substances or materials defined as or included in the definition of "hazardous substances", "hazardous wastes", "hazardous materials" or "toxic substances" under, or for the purposes of, hazardous materials laws. Buyer acknowledges that in light of the age of the Project, there may be asbestos and other hazardous substances in the apartments, or in, under or around the Project. Because of the possible presence of such substances, Buyer should have the apartment inspected to determine the extent (if any) of such contamination and any necessary remedial action. The developer will not correct any defects in the apartments or in the Project or anything installed or contained therein and Buyer expressly releases the developer from any liability to Buyer if any hazardous materials are discovered.

- D. The developer declares subject to the penalties set forth in section 514A-49(b) that this project is in compliance with all county zoning and building ordinances and codes, and all other county permitting requirements applicable to the project, pursuant to Act 251 (SLH 2000) [Section 514A-1.6] (The developer is required to make this declaration for issuance of an effective date for a final public report.)
- E. The developer hereby certifies that all the information contained in this Report and the Exhibits attached to this Report and all documents to be furnished by the developer to buyers concerning the project have been reviewed by the developer and are, to the best of the developer's knowledge, information and belief, true, correct and complete.

DEVELOPER'S RESERVED RIGHTS

A. In Paragraph 20 of the Declaration, the Developer (also called the "Declarant") has reserved the following rights to change the Declaration and Condominium Map, without the consent of the consent of apartment owners. The relevant portions of Paragraph 20 is as follows:

"20.1 Amendments Generally. Except as otherwise expressly provided herein or in the Act, this Declaration and the Condominium Map may be amended only by the affirmative vote or written consent of all of the Apartment Owners, evidenced by an instrument in writing, signed and acknowledged by each of them, which amendment shall be effective upon recordation in the Recording Office; provided, however, that notwithstanding the foregoing provision, at any time prior to the first recording of a conveyance or transfer (other than for security) of an Apartment and its appurtenances to a party not a signatory hereto, the Declarant may amend this Declaration (including all exhibits), the Condominium Map and the Bylaws in any manner, without the consent or joinder of any Apartment purchaser or any other party. Notwithstanding the lease, sale or conveyance of any of the Apartments, Declarant may amend this Declaration (and when applicable, any exhibits to this Declaration and the Condominium Map) to file the "as-built" verified statement required by Section 514A-12 of the Act (i) so long as such statement is merely a verified statement of a registered architect or professional engineer certifying that the final plans thereto filed fully and accurately depict the layout, location, Apartment numbers, and the dimensions of the Apartments as built, or (ii) so long as the plans filed therewith involve only minor changes to the layout, location, or dimensions of the Apartments as built or any change in the Apartment number.

20.2 Amendments Required by Law, Lenders, Title Insurers, Etc. Any other provision of this Declaration notwithstanding, for so long as the Declarant retains any interest in an Apartment in the Project, the Declarant shall have the right (but not the obligation) to amend this Declaration and the Bylaws (and the Condominium Map, if appropriate) without the consent or joinder of any Apartment Owner, lienholder or other person or entity, for the purpose of meeting any requirement imposed by (i) any applicable law, (ii) the Real Estate Commission of the State of Hawaii, (iii) any title insurance company issuing a title insurance policy on the Project or any of the Apartments, (iv) any institutional lender lending funds on the security of the Project or any of the Apartments, or (v) any other governmental or quasi-governmental agency including, without limitation, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, the U.S. Department of Housing and Urban Development or the Veterans Administration; provided, however, that no amendment which would change the common interest appurtenant to an Apartment or substantially change the design, location or size of an Apartment shall be made without the consent of all persons having an interest in such Apartment. Each and every party acquiring an interest in the Project, by such acquisition, consents to the amendments described in this Paragraph 20.2 and agrees to execute and deliver such documents and instruments and do such other things as may be necessary or convenient to effect the same, and appoints Declarant and its assigns as his or her attorney-in-fact with full power of substitution to execute and deliver such documents and instruments and to do such things on his or her behalf, which grant of such power, being coupled with an interest, is irrevocable for the duration of such reserved rights, and shall not be affected by the disability of such party or parties.

20.3 Mortgagee Approval. Any other provision of this Declaration notwithstanding, the approval of eligible holders of first mortgages (as defined below) on Apartments to which at least fifty-one percent (51%) of the votes of Units subject to mortgages held by such eligible holders are allocated shall be required to materially amend any provision herein, or to add any material provisions hereto, which establish, provide for, govern or regulate any of the following: (a) voting; (b) assessments, assessment liens or subordination of such liens; (c) reserves for maintenance, repair and replacement of the common elements; (d) insurance or fidelity bonds; (e) right to use of the common elements; (f) responsibility for maintenance and repair of the several portions of the Project; (g) expansion or contraction of the Project or the addition, annexation or withdrawal of property to or from the Project; (h) boundaries of any Unit (except where the amendment merely reflects that a Unit has been constructed according to alternate plans shown on the Condominium Map); (i) the interests in the common elements or limited common elements; (j) convertibility of Units into common elements or of common elements into Units; (k) leasing of Units; (l) imposition of any right of first refusal or similar restriction on the right of a Unit Owner to sell, transfer, or otherwise convey his Unit; (m) establishment of self-management of the Project by the Association where professional management has been required by any agency or corporation which has an interest or prospective interest in the Project; and (n) any provision that expressly benefits holders, insurers, or guarantors of first mortgages on apartments in the Project. To qualify as an "eligible holder of a first mortgage", a holder, insurer or guarantor of a first mortgage on a Unit in the Project must have made a written request to the Association for timely written notice of proposed amendments to the condominium instruments. The request must state the name and address of the holder, insurer or guarantor and the number of the Unit covered by the mortgage. In the event that an eligible holder of a first mortgage fails to appear at a meeting of the Association at which amendments of a material nature to this Declaration are proposed and considered, or fails to file a written response with the Association within thirty (30) days after it receives proper notice of the proposed amendment, delivered by certified or registered mail, with a "return receipt" requested, then and in any such event such amendments shall conclusively be deemed approved by such eligible holder of a first mortgage.

In addition to the foregoing, no amendment to this Declaration which would allow any action to terminate the condominium property regime created hereby for reasons other than substantial destruction or condemnation shall be made without the prior written approval of not less than sixty-seven percent (67%) of the eligible holders of first mortgages.

20.4 Notwithstanding the foregoing, an Owner shall have the right without the consent or joinder of any other person to amend this Declaration and the Condominium Map to reflect the changes made to his Unit in accordance with Paragraph 19.1 of this Declaration. Promptly upon completion of such changes, the Unit Owner shall duly record with the Recording Office an amendment to his Declaration and to the Condominium Map, together with a complete set of the floor plans of the Project as so altered, certified as built by a registered architect or professional engineer. All existing Unit Owners and all future Unit Owners and their mortgagees, by accepting an interest in a Unit, shall be deemed to have given each Unit Owner a Power of Attorney to execute an amendment to the Declaration solely for the purpose of describing the changes to his respective Unit on the Declaration so that each Unit Owner shall hereafter have a Power of Attorney from all the other Unit Owners to execute such amendment to the Declaration. This Power of Attorney shall be deemed coupled with each Owner's interest in his Unit (including its appurtenant common interest) and shall be irrevocable."

B. The Declaration also includes other reserved rights in favor of the Developer. They include, among others, the following:

Subparagraph 7.1(d) " (d) Rights reserved in favor of the Declarant (i) to relocate easements for utility purposes from that certain 3-foot wide easement (485 square feet) to the Driveway Limited Common Element and (ii) to create an underground easement within Dwelling Unit A Limited Common Element for a waterline along the boundary between Holawa Street and Dwelling Unit A Limited Common Element. (Said rights being for the benefit of Dwelling Units B, C and D. The exercise of such rights may be subject to the consent and approval by the owner of the land located southerly side of the Project.)"

Paragraph 7.5 "Right to Grant Utility Easements. Declarant reserves the right to grant (including the right to convey, transfer, cancel, relocate and otherwise deal with a grant) to any public or governmental authority rights-of-way and other easements, which are for the benefit of the Project; provided that such does not materially interfere with the use nor materially impair the value of any Unit, over, across, under and through the common elements (including Limited Common Elements) for lines and other transmission facilities and appurtenances for electricity, gas, telephone, water, sewer, drainage and other public services and utilities, and rights to enter for the purpose of installing, repairing, altering and removing such lines and facilities and of trimming any trees in the way thereof. The rights reserved to Declarant in this paragraph shall continue for so long as Declarant owns any interest in any of the Units. When the Declarant is no longer an Owner of a Unit in the Project, the rights reserved to Declarant in this paragraph shall terminate as to Declarant and shall automatically vest in the Association."

Paragraph 7.6 "Reservation of Rights. The interest of an Owner of a Unit in the Project takes subject to the following:

(a) Title to the Land is subject to (and each apartment unit purchaser shall assume) the obligation to be a member of the Association consisting of Unit Owners; and

(b) Rights reserved in favor of the Declarant to relocate easements for utility purposes from that certain 3-foot wide easement (485 square feet) to the Driveway Limited Common Element and to create a waterline easement over Dwelling Unit A Limited Common Element in accordance with Subparagraph 7.1(d).

(c) Rights reserved either or both of the Owner of Dwelling Unit D and the Owner of Dwelling Unit D to place a septic system on Dwelling Unit C Limited Common Element in connection with the future development of Dwelling Unit D or Dwelling Unit C in accordance with Paragraph 7.2(d), whereupon the existing sewer easement across Dwelling Unit C Limited Common Element would be abandoned and removed."

EXHIBIT "B"

PERMITTED ALTERATIONS TO APARTMENTS.

Paragraph 19.1 of the Declaration, as amended, provides a mechanism allowing future changes and alterations to be made to apartments. It reads as follows:

"19.1 Changes to Units. Notwithstanding anything to the contrary contained in this Declaration, a Unit Owner, with the consent by the holder of any mortgage affecting the Owner's Unit (if required by such mortgage), shall have the right at his sole option at any time and from time to time without the consent of any other person, to improve, renovate, remodel, make additions to, enlarge, remove, replace or restore the improvements to or in his Unit or portions thereof or to make or build improvements upon the Dwelling Unit Limited Common Element appurtenant to his Unit (collectively, the foregoing are referred to "changes") subject to the following conditions:

(a) All changes shall conform with applicable City and County building, land use and other applicable laws and ordinances ("County Rules") and applicable State of Hawaii laws and regulations ("State Laws") and shall also conform with the Existing Use Permit.

(b) All changes to a Unit must be made within the Dwelling Unit Limited Common Element which is appurtenant to the Unit, provided however, that

(i) no structure as defined under the LUO shall be constructed or placed within five (5) feet of any boundary line separating two Dwelling Unit Limited Common Elements;

(ii) no structure as defined under the LUO shall be constructed or placed on Dwelling Unit A Limited Common Element which is located within 11-feet of the northwesterly boundary line of such Dwelling Unit A Limited Common Element; and

(iii) no structure as defined under the LUO shall be constructed or placed on Dwelling Area Unit C or Dwelling Area Unit D within that area on which a leaching field is located.

(iv) so long as the Project is serviced by private septic systems, all changes shall conform to the State Department of Health rules, unless a variance therefrom has been obtained.

(c) No change to a Unit will be made if the effect of such change would be to exceed the Unit's proportionate share of the allowable floor area or building area coverage for the Land, or number of dwelling units, as defined by the LUO in effect when the change is to be made; provided, however, for purposes hereof, the "proportionate share" for each Unit shall be a fraction having as its numerator the land area of the Unit's Dwelling Unit Limited Common Element and having as its denominator the total land area of all of the Dwelling Unit Limited Common Elements.

(d) All such changes shall be at the expense of the Owner making the change, shall be expeditiously made and completed in a manner that will not unreasonably interfere with or cause damage to any other Unit, its appurtenant Dwelling Unit Limited Common Element, or the use thereof by an Owner of another Unit.

(e) During the entire course of such construction, the Owner making such change will cause to be maintained at his expense builder's all-risk insurance in an amount not less than the estimated cost of construction. The Association shall be named as an additional insured and, upon the request of the Association, evidence of such insurance shall be deposited with the Association or its Managing Agent, if any;

(f) The Owner of the changed Unit shall have the right to utilize, relocate and realign existing and/or to develop additional, central and appurtenant installations for services to the Unit affected by such change for electricity, sewer and other utilities and services and when applicable, to add, delete, relocate, realign, designate and grant easement and rights-of-way over, under and on the common elements as necessary or desirable in connection therewith; provided that the same shall not cause any permanent interruption in the service of such utilities to any other part of the Project or otherwise materially interfere with their use by any other Owner."

Because the Project is not serviced by a public sewer system, the Project is regulated under the rules of the State of Hawaii Department of Health rules governing private septic systems. Additionally, Paragraph 19.2 of the Declaration, as amended, governs the use and installation of private septic systems. It reads as follows:

"19.2 PRIVATE SEPTIC SYSTEM OR CESSPOOL.

(a) Definition. "Private Septic System" shall mean any private wastewater disposal or treatment and disposal system (including without limitation septic tanks and injection fields or cesspools) now or hereafter located on or under the Land or any portion thereof and which is not hooked into a public sewer or septic system.

(b) Designation of Common Element. If a Private Septic System is utilized by more than a single Unit Owner but not all of the Unit Owners, then such System shall be considered to be a limited common element for those users. (Accordingly, as of the date hereof, Dwelling Units A and B share one Private Septic System; and Dwelling Units C and D share another Private Septic System.) If a Private Septic System is subsequently utilized by all of the Unit Owners, it shall be considered to be a common element.

In either such event, the portion of the Dwelling Unit Limited Common Element on which the system is now or hereafter located (together with reasonable rights of access to and from the System) shall constitute a common element or limited common element, as applicable, available for use as a Private Septic System; provided, however, that except for such use as a Private Septic System of that portion of the Dwelling Unit Limited Common Element under which the System is located or across which access is required, all other uses of such affected Dwelling Unit Limited Common Element are exclusively reserved for the benefit of the Unit to which the Dwelling Unit Limited Common Element is appurtenant.

(c) Sharing of Costs. Notwithstanding Paragraph 15 of the Declaration, the costs and expenses (including any replacement thereof) relating to a Private Septic System which is a common element or limited common element shall be treated as a common expense or limited common expense, as applicable, to be shared equally by each Unit Owner utilizing such System.

(d) Future Expansion or Installation. As of the date hereof, Dwelling Units C and D utilize a cesspool which does not meet the current requirements for septic systems under State Laws. Such cesspool is considered to be legally nonconforming under the State Laws and may continue to be utilized. However, if a material change is proposed with respect to a Unit which is serviced by a Private Septic System, the State Department of Health may require that an Owner seeking such change to expand the Owner's existing Private Septic System or replace an existing system by installing a new system on his or the adjoining Dwelling Unit Limited Common Element. Unless another of the Unit Owners agree to share in the installation or expansion or sharing of future costs relating thereto, then the Owner who desires to expand the Private Septic System or install a new System ("Expanding Owner") may do so on the following terms and conditions:

(i) All costs and expenses (including without limitation the costs of design, permitting, engineering, construction, and landscaping, and costs of any temporary treatment facility if required during such expansion) shall be paid for by the Expanding Owner;

(ii) The expansion shall be made by the Expanding Owner in such a manner as to cause minimum disruption of service of each of the existing Private Septic System and shall allow if practicable for the future hook-up of one of the other Units in the Project (the Owner of such other Unit or Units may be collectively referred to as "Non-Expanding Owner");

(iii) The Expanding Owner shall indemnify and hold the Non-Expanding Owner harmless against any loss, liability, damage or expense incurred or suffered by the Non-Expanding Owner on account of such enlargement or installation of the Private Septic System;

(iv) The expansion or installation shall be in compliance with all applicable County Rules, and shall be performed by licensed professionals;

(v) The Expanding Owner shall return the Dwelling Unit Limited Common Element in which the current Private Septic System is located to the same condition (including landscaping) as it was in prior to such expansion or installation;

(vi) The Expanding Owner shall provide reasonable assurance to the Non-Expanding Owner that the Expanding Owner has the financial ability to pay for all costs and expenses relating to such expansion or installation;

(vii) Any installation of a new Private Septic System shall be on and under the same Dwelling Unit Limited Common Element where the prior system being replaced or expanded was located.

(viii) If after the Expanding Owner expands the Private Septic System or installs a new septic system and pays the cost and expense of such expansion or installation, a Non-Expanding Owner wishes to make a change to his Unit which would require an expansion of the current Private Septic System or installation of a new System, then if the Expanding Owner shall have provided for the future hook-up of such other Unit, the Non-Expanding Owner shall have the right to hook into and utilize the expanded or newly installed Private Septic System made by the Expanding Owner (subject to any legal restrictions imposed on such System by the County or State), provided the Non-Expanding Owner shall reimburse the Expanding Owner for the Non-Expanding Owner's proportionate share of such costs of original expansion or installation made by the Expanding Owner; and provided, further, that the Expanding Owner shall not otherwise be affected in his use of his Unit and Dwelling Unit Limited Common Element.

(f) Termination if Public Sewer System. In the event that a governmental entity or public utility makes available to the Unit Owners the right to hook into its common septic system ("Public Sewer System") which could replace the Private Septic System, then at the request of a majority of the Unit Owners, the Owners of the Units shall hook up to the Public Common Sewer Facility and shall abandon the Private Septic System. All costs and expenses associated with the hook up to the Public Common Sewer Facility shall be allocated in a reasonable and fair manner, and the costs associated with the abandonment and removal of the Private Septic System shall be shared according to the sharing of other common expenses.

(g) Notwithstanding any provision to the contrary, it is understood that the prior septic system with cesspool that was shared by Dwelling Unit C and Dwelling Unit D has been replaced so each Dwelling Unit now has its own septic system, tank and leaching field located as shown on the Amended Site Map. The installation of such systems was done in accordance with a renewable 5-year variance granted by the State of Hawaii Department of Health. There shall be no shared expenses or operations of the systems. Each Owner shall maintain and service as required his own septic system and shall be responsible for the renewal of the current variance (during each five year period). The area of each leach field shall not be used for the location of a structure or planted with landscaping, but may be used for vehicle parking by the Owner, except that the Owner of Dwelling Unit D shall have an easement for utility purpose over a portion of Dwelling Area Unit C to allow for installation of utilities underground from Dwelling Unit D to the Driveway Limited Common Element."

Dear Mr. Grad:

Subject: Condominium Conversion Project
59-029 Holawa Street
Tax Map Key: (1) 5-9-001: 110 (Lot 118)

This is in response to your letter dated June 14, 2001 requesting verification that the structures on the above-mentioned property met all applicable code requirements at the time of construction.

Investigation revealed that the four one-story single-family detached dwellings were moved, relocated or constructed prior to 1958. However, we are unable to determine if the dwellings meet setback requirements since the lot is not surveyed and staked. The four dwelling units were permitted on this 28,370-square foot R-5 Residential District zoned lot in 1958.

Investigation also revealed that an existing use permit (EUP), number 92/EU-9, was approved on December 1, 1992 for the four dwelling units on this parcel and the two dwelling units on the adjoining parcel (Lot 117). A modification to this EUP was approved on June 8, 2001 to remove Lot 117. However, conditions required in the existing use permit have not been met, including the all-weather surface driveway and parking spaces and landscaping.

No other variances or special permits were granted to allow deviations from any applicable codes.

For your information, the Department of Planning and Permitting cannot determine all legal nonconforming uses or structures as a result of the adoption or amendment of any ordinances or codes.

Mr. Jeffrey S. Grad
